GLOBAL OUTREACH PROJECTS

FFP supports globally sustainable projects that create income-generating and/ or microfinance opportunities for individuals/families/communities in developing countries. FFP has partnered with Kiva (an organization that connect people, through lending, for the sake of alleviating poverty) to support sustainable textile and artisan-based projects. Through the support of FFP, we entrust that this seed funding will expand the skill sets within communities, benefit families, and help communities sustain themselves

By helping Ms Ichnnorov Bathasam FFP is helping to increase Ms. Ichnnorov Batbasabm's customer base and build a sustainable future for her family and community.

Through our contributions, Ms Maria Batza is able to better sustain her family and community.
